Hi Curt,

While I believe EPA and ADEQ will have access to the backup documents referenced in your agenda, it may be helpful to have those documents consolidated as a companion with the agenda... so thus, we can be sure we do not overlook any backup documentation that you would like us to examine.

If you can, I recommend that you bring and/or send a DVD of the backup documentation for our meeting on Sep 5. This DVD can be labeled: 'Backup Documentation as Referenced in Sep. 5 Agenda'. This DVD, along with your agenda, will all be part of the official record, as requested.

Thanks,

Stephen L. Tzhone

Hi Stephen,

Thanks, no I didn't mean to show the slide show. It just makes it easier to present the information I find. I just hope no one ever prints that pdf because of the black background.

The agenda will refer to multiple backup documents. I can provide copies of backup documents as attachments either now or upon request from any attendee; which do you prefer?

Many of the cited documents are official agency publications, such as the EPA FY 2011-2015 Strategic Plan, which I don't need to supply.

I'll finalize and get to you by tomorrow; please let me know any suggestions then how the agenda can be improved.

Curt

Hi Curt,

I have received the following email with attachments. As a request (and in an effort to consolidate important issues into one list), can you add the subject matter from the email into your agenda and send one final agenda? Thanks.

Also, while there are no current plans for a slide show on Section V, the received email and attachments will all be part of the official record for our Sep 5 meeting, as requested. I have also shared them with my management (along with the rest of Section V) to be considered for internal follow-up action. I can assure you that your suggestions, examples, and experience as detailed in Section V (and related emails and attachments) will all be considered and that an update is planned to be given at our meeting on those items.

Thanks,

Stephen L. Tzhone

Can you send a slide show as backup to a part V item?

If not here's the pdf also; I recommend that no one try printing it unless they want to waste a lot of black ink and paper.

I'll make it one simple item in part V. and management can look at this backup if they are willing to
